- *Integrating Personality into Digital Humans: A Review of LLM-Driven Approaches for Virtual Reality* - Iago Brito, Julia Dollis, Fernanda Bufon, Pedro Ribeiro, Rafael Sousa and Arlindo Galvão

Panel: “*The future of avatar research*”. The workshop was concluded by a panel discussion including the keynote speakers, organizers, and audience to discuss in an interactive manner the future directions and challenges of the community on the topic of avatars.

4 INTERNATIONAL PROGRAM COMMITTEE

The technical program committee was composed of 9 experts in the areas relevant to the workshop

- Andreas Aristidou, University of Cyprus
- Quentin Avril, Interdigital
- Dan Casas, Universidad Rey Juan Carlos
- Victoria Fernandez Abrevaya, Max Planck Institute for Intelligent Systems
- Rebecca Fribourg, Ecole Centrale de Nantes
- Ludovic Hoyet, Inria Center of Rennes University
- Rachel McDonnell, Trinity College Dublin
- Franck Multon, Inria Center of Rennes University
- Stefanie Wuhrer, Inria Center of Grenoble University
