In *Special Interest Group on Computer Graphics and Interactive Techniques Conference (SIGGRAPH Production Sessions '26)*, July 19–23, 2026, Los Angeles, CA, USA. ACM, New York, NY, USA, 2 pages. <https://doi.org/10.1145/3774846.3797233>

1 Overview

Howdy folks! Hop onto your saddle and hold on tight because this is going to be a wild ride! Jessie is the new sheriff in town at Bonnie's house, who is now eight years old. Ever since Bonnie's parents gifted her with LilyPad, a grating, tablet tech toy shaped like a frog, playtime has dried up; Bonnie's a full-on screen zombie! THE AGE OF TOYS IS OVER!!

In this Production Session, you'll learn how Toy Story 5 was made including new characters, new environments, new looks and new technology. We'll show you how we created FIFTY Buzz Lightyears, new tech toys, a perky Sticky Hand, a glamorous collection of horse figurines, a haunting toy shed, and a child's imagination brought to life on the big screen in a way the audience has never seen before. Join us on this adventure and learn how the world of Toy Story is
