1 Description

Join the DNEG VFX team for an in-depth behind-the-scenes look at the visual effects that brought the most hotly anticipated sequel of the year to life! DNEG was proud to build on the success of their award-winning work for ‘Dune’ by acting as the main VFX partner for ‘Dune: Part Two’. The sequel expands on the first film in all ways - bigger, bolder, and with much more action. As such, DNEG’s work pushed the creative and technical boundaries to create something new, exhilarating and awe-inspiring. A fully global team of over 1700 crew came together to craft an expanded world, more detailed creatures, and even more explosive and technically complex FX sequences to build on the aesthetic created for ‘Dune’ and continue the epic journey for ‘Dune: Part 2’.
