ABSTRACT

The cinematic trailer for Skull and Bones tells a ‘rags to riches’ story about the destitute character Sam, finding his way from the streets of Boston, overcoming adversities and swashbuckling his way to become a pirate lord in the Indian Ocean. In order to tell the story which spans oceans, continents and time, Goodbye Kansas collaborated closely with DDB and Ubisoft Singapore to find the correct context, tone and tempo of the narrative as well as flesh out and develop the protagonist: Sam. The challenge was to show the hero’s journey, as well as hint at the larger scope of the game’s world and the possibilities it offers.
