1 Description

Telling amazing stories involving beloved characters is at the forefront of what we do at Nickelodeon Animation Studio. It is imperative to tell these stories with characters from diverse backgrounds and experiences, as it is important to see the world through their eyes and perspective. We pride ourselves in our history of demonstrating diversity, equity, and inclusion in our shows, and continue to innovate our CG processes and workflows to keep DEI representation relevant in the broadcast space. Recent productions such as “Big Nate”, “Transformers: EarthSpark”, and “Monster High” exhibit our commitment to DEI. This panel will demonstrate the efforts, focus, and resoluteness we pursue on being inclusive and authentically representing our characters in our productions.
