1 Description

Who you gonna call when the world freezes over? Sony Pictures Imageworks! Join artists for an exclusive behind-the-scenes sneak peek at the making of Ghostbusters: Frozen Empire. This session will focus on the development of detailed environments, creation of unique characters, and the artistic and technological innovations the production has developed for this highly-anticipated feature.

Directed by Gil Kenan, in Ghostbusters: Frozen Empire, the Spengler family returns to where it all started – the iconic New York City firehouse – to team up with the original Ghostbusters, who've developed a top-secret research lab to take busting ghosts to the next level. But when the discovery of an ancient artifact unleashes an evil force, Ghostbusters new and old must join forces to protect their home and save the world from a second Ice Age.
