ABSTRACT

ILM and its partner visual effects companies take you behind the scenes of the second season of Lucasfilm's hit Disney+ series "The Mandalorian." The team will discuss an array of the 5,000 visual effects shots created by the global team from sand dragons to ice spiders and miniatures as well. advancements made in the virtual production arena. The panelists will discuss ILM StageCraft 2.0 as well as Helios, ILM's groundbreaking new real-time render engine implemented for the first time this season.
