ABSTRACT

We present Secret Mapping, an interactive tabletop installation coupled with a handheld Augmented Reality (AR) visualisation. The installation showcases five selected locations which are the human-scale twins of actual, real-world exhibits all located throughout

Permission to make digital or hard copies of part or all of this work for personal or classroom use is granted without fee provided that copies are not made or distributed for profit or commercial advantage and that copies bear this notice and the full citation on the first page. Copyrights for third-party components of this work must be honored. For all other uses, contact the owner/author(s).

former Yugoslavia. AR visualisation illuminates these miniature 3D replicas and encompasses them with an extended version of the archived visuals created by the artists, specifically to each spot. The installation invites visitors to join the artists on their trip and reenact their journey with an collaborative tabletop interface, while offering the possibility for backwards or forward exploration.
